WORK EXPERIENCE

JUNIOR FRONT END DEVELOPER @ BARKING BIRD

June 2016 - Current

As a Junior Developer, I developed a wide range of W3C compliant websites and apps for our clients, from conception to implementation via careful collaboration with our UI/UX designer and Back-End Development team. From responsive one-page sites to e-commerce websites on a custom CMS to functional EDM newsletters suited to all email clients.

STUDIO PRODUCTION ASSISTANT @ BARKING BIRD

October 2014 - June 2016

My main responsibility as the Studio Production Assistant was to manage the studio workflow between Account Management, Design, and the Web Development teams to ensure all projects were delivered on time and to the client's expectations. This role included: working with the Account Managers and creative teams to prepare quotes and pitches as required.

MARKETING COORDINATIOR @ LEICA CAMERA

April 2013 - October 2014

The main responsibilites of this role were: designing and creating content for EDMs via Mailchimp, uploading marketing material to Leica's online libraries, internet groups and social media sites, assisting with the production of marketing materials and literature with Adobe Creative Suite, copywriting, coordinating the production of a wide range of marketing communications, managing events, as well as liaising with PR agencies.

SERVICE CONSULTANT @ NTI

April 2013 - October 2014

As a Service Consultant at National Transport Insurance, it was my duty to offer impeccable underwriting service to our clients, this included: responding to email and website queries within a pre-determined time period as part of KPIs, maintenance of client databases via Technology-One, maintaining company intranet with correct information for local office, compiling and analyzing business reports to assist in developing business strategies.
